MERN Developer experienced in building Web applications using Reactjs, Nodejs, Expressjs, MongoDB, Redux, HTML5, CSS3, JavaScript and Typescript. Proficient in all stages of the software development lifecycle, including requirement analysis, implementation, and maintenance with agile and scrum methodologies. Skilled in developing single-page applications (SPAs). Proficient in source code version control systems like GIT. Experienced in unit testing React components using Jest and vitest. Strong communication skills, collaborative team member, adaptable learner committed to continuous learning.

SKILLS

Languages and Libraries	React.js, Redux, Javascript, Typescript, HTML5, CSS3, MUI, Bootstrap, Node.js, Express, Data Structures
Databases and Tools	MySQL, MongoDB, VS Code, Postman, Vite, Webpack, Figma, Jira, Git, Gitlab, Redis, SonarQube, Docker
Services	Rest APIs, Azure, CI/CD(Gitlab CI)
GenAI	System prompting, Agentic AI, Langchain, RAG, OpenAI agents SDK

EXPERIENCE

EPAM Systems   **Mar 2023 — Present**
Senior Software Engineer / IQVIA   **Gurgaon, Haryana**
- Led the feature development of a product for IQVIA (IHP-SMP). Responsibilities included feature development, unit testing, bug fixing, story grooming, feature estimation, code reviews, and mentoring new team members.
- Improved UI performance by 30% through performance optimization techniques (memoization, virtualization, code-splitting).
- Reduced production bug rate by 50% through writing 100+ unit tests and introducing component-level testing with Vitest, decreased code smells to zero via ESLint and SonarQube enforcement.
- Led the development of custom components based on UX design mockups, ensuring high-quality frontend solutions.
- Worked in an Agile Scrum team, aligned requirements with scrum master, stakeholders, and BAs, and used daily standups and retrospectives to improve delivery.
- Key technologies: Javascript, React.js, Redux toolkit, React query, Nodejs, Expressjs, PostgreSQL, MUI, CSS, Vite, ESLint, Git, Figma, Jira.
- Received the 'Delivery Excellence Award' in recognition of my commitment and consistent delivery of high-quality work.

EPAM Systems   **Jun 2022 — Feb 2023**
Software Engineer / Goldman Sachs   **Gurgaon, Haryana**
- Worked on maintenance and support for the Welcome Experience portfolio at Goldman Sachs.
- Performed code development, unit testing (Threshold of 80 percent), and defect resolution in adherence to development standards, emphasizing readability, reusability, and clarity.
- Led a team of 2 developers to deliver dynamic Welcome Experience forms via JSON-based configuration, enhancing scalability.
- Worked on implementing and maintaining efficient, reusable, and modular components while adhering to the best React practices for performance and responsive design.
- Key technologies: Javascript, Typescript, React.js, Redux, React Hooks, Jest, Cypress, CSS, Git, Figma, Jira.

Amdocs   **Jul 2020 — Jun 2022**
Associate Software Engineer / Vodafone Ireland   **Pune, Maharashtra**
- Contributed to the development of a web application, in the telecom domain to manage offer-related data.
- Focused on transforming wireframes and designs into functional, visually appealing interfaces, adhering to React best practices.
- Developed an interactive interface for testers that reduced the manual task by 80 percent.
- Contributed to the software development lifecycle by ensuring on-time delivery of feature and meeting sprint commitments.
- Key technologies: Javascript, Reactjs, Typescript, React Hooks, Cross browser compatibility, Nodejs, Expressjs, MongoDB, Git.
- Recognized as 'Employee of the Month' for consistently delivering projects on time with high quality.

EDUCATION

Bachelors of Technology(CSE), *Guru Nanak Dev University, Amritsar*   Aug 2016 - Jul 2020
CGPA - 8.47
XII Class, *Kendriya Vidyalaya Nangal Bhur*   Apr 2015 - Mar 2016
Percentage - 89.2
X Class, *Kendriya Vidyalaya Nangal Bhur*   Apr 2013 - Mar 2014
CGPA - 10

CERTIFICATIONS/AWARDS

Received Employee of the Month(Amdocs) in 2021, Pat on the back(GS) in 2023, Delivery excellence(IQVIA) in 2023 and 2024, and value champion award in 2025.
AWS Certified Cloud Practitioner | Microsoft Certified: Azure Fundamentals (AZ-900)
Awarded Player of the tournament and best bowler in EPAM cricket league season 5 and season 6.
